OPOLE

DISTRIBUTION BOX - STATIONARY AND MOBILE

Distribution boxes **OPOLE** are designed for indoor and outdoor applications - available in various configurations and sizes.

The massive, high-quality housing made of ABS plastic, tested and certified in accordance with IEC/EN 62208* has a wide range of properties. These include: high impact and fatigue resistance of the material, excellent thermal stability, dielectric fatigue, invulnerability to weather conditions and UV radiation, good insulating properties and resistance to many chemical compounds. The material does not contain cadmium, red phosphorus or halogens (fluorine, chlorine, bromine, iodine and astat).

OPOLE series of distribution boxes work perfectly in all conditions.

Degree of protection: IP54,IP66/IP67
